

EEO/DAC Volunteer Month Bike Collection

Inspired by National Volunteers Month, the NER EEO/DAC held a charitable bike collection at the Regional Office on March 28, 2007. The donated bikes were driven to a Tufts University sponsored collection point where they were given a quick once-over and loaded onto a container for shipment. Next stop - Ghana, West Africa where "Bikes Not Bombs", sponsors the Village Bicycle Project. This project stimulates small business development in Ghana by offering bicycles, bike repair tools and training where the need for bicycle transportation is critical. Thirteen adult and children's bikes and \$100 (to defray shipping costs) were donated from NER staff to help provide sustainable transportation in Ghana. The NER collection was organized for EEO/DAC by Jessica Pruden (PR), Kathi Rodrigues (Habitat) and Paul Perra (SFD).
